Q3 AWT GUI Design

10 marks

"Develop an AWT-based Student Registration Form using: Label
TextField
CheckboxGroup
Choice
Button
Frame- Arrange the components using an appropriate layout manager. "

Test Cases:

tc1_input- Student ID=S101, Name=Ravi Kumar, Gender=Male, Department=Information Technology

tc1_output- Student Registered Successfully

tc2_input- Student ID=S102, Name=Priya, Gender=Female, Department=Computer Science

tc2_output- Registration Successful and student details displayed

tc3_input- Student Name is empty

tc3_output- Student Name is required

Q2 Applet Lifecycle

10 marks

"Develop an Applet demonstrating the lifecycle methods: init()
start()
paint()
stop()
destroy()- Display an appropriate message when each lifecycle method is invoked. "

tc1_input- Execute the Applet for the first time
tc1_output- init() is invoked and initialization message is displayed
tc2_input- Start or reload the Applet
tc2_output- start() is invoked and start message is displayed
tc3_input- Stop or navigate away from the Applet
tc3_output- stop() is invoked and stop message is displayed

Q4 Event Handling

10 marks

"Develop an AWT application containing two text fields and buttons for: ADD
CLEAR- When the ADD button is clicked, calculate and display the sum of two numbers.
When CLEAR is clicked, clear the input fields."

Test Cases:

tc1_input- Number 1=10, Number 2=20, Click ADD
tc1_output- Sum = 30
tc2_input- Number 1=100, Number 2=250, Click ADD
tc2_output- Sum = 350
tc3_input- Number 1=-10, Number 2=20, Click ADD
tc3_output- Sum = 10

Q5 Integrated AWT Application

10 marks

"Develop an AWT-based Employee Salary Calculator.
The application should accept:
Employee ID
Employee Name
Basic Salary
Calculate: HRA = 20% of Basic Salary
DA = 10% of Basic Salary
Gross Salary = Basic + HRA + DA- Use suitable AWT components and event handling."

Test Cases:
tc1_input- Basic Salary=10000, Click Calculate
tc1_output- HRA=2000, DA=1000, Gross Salary=13000
tc2_input- Basic Salary=25000, Click Calculate
tc2_output- HRA=5000, DA=2500, Gross Salary=32500
tc3_input- Basic Salary=50000, Click Calculate
tc3_output- HRA=10000, DA=5000, Gross Salary=65000
