Q1 Capstone_Project_Demonstration

50 marks

Demonstrate the completed Java-based capstone project developed for solving the selected application problem. The student shall:

1. Demonstrate the working application and its major functionalities.
2. Demonstrate the appropriate implementation of the relevant Java I/O and File Handling concepts.
3. Demonstrate JDBC connectivity and database operations, including the implemented CRUD functionalities, wherever applicable.
4. Execute the project using suitable test cases and demonstrate the expected outputs.
5. Explain the overall project design, major modules, Java concepts used, and the reason for selecting the implemented approaches.
6. Submit the project documentation containing the project title, problem statement, objectives, methodology/design, implementation details, screenshots, test cases, results, and conclusion.
